

FLOAT GLASS

 **ŞİŞECAM**
ULTRA CLEAR
FLOAT GLASS

ULTRA CLARITY
ULTRA ELEGANT

Benefits

- Şişecam Ultra Clear Float Glass, has 91% light transmission.
- Thanks to higher light transmission, you feel like there is no glass. Şişecam Ultra Clear Float Glass ensures a more natural and brighter view of the objects behind.
- With its transparent edge and clarity, Şişecam Ultra Clear Float Glass is an optimum choice for interior and furniture designs where aesthetic and elegant solutions needed.
- Provides higher passive solar gain with maximum use of solar energy during the winter.

The greenish tint in standard clear glass is not present when viewed from the edge.

Applications

- Shop windows
- Museum and exhibition display units
- Windows and doors
- Atriums and staircases
- Separators and glass partitions
- Shower cabins

Şişecam Ultra Clear Düzcam can be used through the applications of tempering, edge processing, laminating, coating, bending, mirroring.
